Viridis, yellow with green center	" 4. "

Type of Begonia double.

Begonia single, free flowering, for bedding.

	per 100
BERTINI. Much appreciated for the abundance of its long petaled flower of brilliant vermillion colour, producing their greatest effect in the full sun. As a bedder stands unrivalled	\$ 4.50
BERTINI LILLIPUT. Has the same qualities as <i>B. Bertini</i> , but is of much dwarfer habit	" 6. "
BERTINI ROSE M^{me} MANDROT. The flowers of this variety are of a very lovely salmon pink colour and do not burn in full sun	" 7. "
GLOBOSA (scarlet). Very floriferous, dwarf and compact; a miniature of the charming <i>Begonia gigantea</i>	" 1.50
GLOBOSA. Colours white and rose, separate	" 1.75
WORTHIANA. A hardy sort with hanging flowers of a lively vermillion colour	" 4.50

Begonias double, free flowering, for bedding.

	per 100
COUNT ZEPPELIN. Dwarf, compact and bushy, flowers bright crimson scarlet; free flowering and a splendid bedder	\$ 4.50
COURONNE D'OR. Canary yellow	" 7. "
CERES. Of a dwarf and compact habit and very floriferous: flowers of a beautiful rose	" 5. "
LAFAYETTE. This is one of the grandest bedders, very floriferous and of good erect habit. — Flowers of medium size, very double and of the most brilliant orange scarlet	" 5.50
MAJOR HOPE. Unquestionably the finest bedding Begonia known, colour rose, deeper on the edge of the petals: the well formed double flowers are produced freely and erect; the blooms thrown well above the foliage are most conspicuously displayed	" 13. "
M^{me} COURTOIS. Very compact, flowers small, numerous, white creamish reflex	" 7. "
PETIT HENRI. Of a light magnificent vermillion; superb	" 5. "
PHOSPHORESCENT. A real jewel; extremely floriferous and, by its clear read-lead flowers, producing a marvellous effect in the sun when planted in groups. — Also well adapted for pot culture	" 4.50
SURPASSE DAVISII. Numerous flowers of a deep red, borne freely on straight stems; the plant has the appearance of bronze very effective; certainly one of the most beautiful varieties among the free flowering Begonias	" 4. "
WASHINGTON. A variety of French origin, of dwarf and compact habit, the flowers are borne in trusses and are of a bright scarlet, very double, contrasting well with the dark-green foliage. — Award of Merit Royal Horticultural Society	" 11. "

Amaryllis hybrids (Hippeastrum).

Grown from one of the best collections for exhibition purposes

Good fullgrown bulbs in mixture, per dozen \$ 4. " — per 100, \$ 25. "

Extra fine Exhibition varieties.

(12 varieties) — per dozen, \$ 2. "...

SEEDS.

In separate or mixed colours, per packet, \$ 1. "...

Gloxinia marmorata and striata.

New and superb Gloxinia, obtained from *Gloxinia tigrina*, by Count J. de Hemptinne of St-Denis-Westrem, near Ghent.

Per dozen, \$ 2 50.

Gloxinia hybrida crassifolia « Meteor » (crispa).

A decided improvement on the ordinary strain of Gloxinias, having its petals delicately frilled and fringed. Flowers very large, with a white throat and brilliant carmine petals. Produces but very small bulbs.

Per 100, \$ 4. "

Imperial Gloxinia (Siningia).

First prize at the quinquennial show of Ghent 1908.

The result of a crossing between Siningia and Gloxinia, much admired at our quinquennial show and a decided improvement on the ordinary Gloxinias. Can be obtained in 6 distinct colours: dark red, brilliant red, pale blue, pink, dark violet and white.

The 6 colours, per 100, \$ 5.50 — Mixed, per 100, \$ 4. "
